## Course Descriptions

### Centennial

#### A2L/ULN

Wednesday, April 2, 8-9:30 a.m.  
 Wednesday, May 14, 8-9:30 a.m.

Free

This A2L course offers detailed information about the new refrigerant specifically for residential use. While it includes Rheem and ADP-specific data regarding refrigerant detection systems (RDS), the training content is universal to all manufacturers.

#### Mini-Split

Wednesday, April 16, 8-11 a.m.

\$75.00

NATE and Mech 4 -- qualifies for 3 NATE credits

This mini-split course will focus on installation and servicing. We will discuss the fundamentals of all mini-split systems, including equipment compatibility and capacity.

#### A/C and Heat Pump

Wednesday, May 28, 8-11 a.m.

\$75.00

NATE and Mech 4 -- qualifies for 3 NATE credits

This A/C and heat pump course will cover installation and service, focusing on the proper application of equipment, as well as the setup and maintenance of the system.

### RDC NEW Regional Distribution Center

#### A2I/ULN

Thursday, May 15, 8-9:30 a.m.

Free

This A2L course offers detailed information about the new refrigerant specifically for residential use. While it includes Rheem and ADP-specific data regarding refrigerant detection systems (RDS), the training content is universal to all manufacturers.

### Colorado Springs

#### A2L/ULN

Thursday, April 3, 4:30-6 p.m.

Thursday, May 15, 4:30-6 p.m.

Free

This A2L course offers detailed information about the new refrigerant specifically for residential use. While it includes Rheem and ADP-specific data regarding refrigerant detection systems (RDS), the training content is universal to all manufacturers.

#### Mini-Split

Thursday, April 17, 4:30-8 p.m.

\$75.00

NATE and Mech 4 -- qualifies for 3 NATE credits

This mini-split course will focus on installation and servicing. We will discuss the fundamentals of all mini-split systems, including equipment compatibility and capacity.

#### A/C and Heat Pump

Thursday, May 29, 4:30-8 p.m.

\$75.00

NATE and Mech 4 -- qualifies for 3 NATE credits

This A/C and heat pump course will cover installation and service, focusing on the proper application of equipment as well as the setup and maintenance of the system.
